

SARAH COLLINS “MY WHY”

Instructional Designer, Integrated Loyalty Systems

As someone who has spent large amounts of time in a hospital bed and in ICU, I was blown away the first time I heard Jake speak.

Every anxiety, question, idea, and emotion I had as a patient was brought back up and followed by wonder that Jake and his team were providing hospitals and healthcare organizations with the support and tools they needed to identify, grow, and maintain cultures which benefit both employees and patients.

As a writer and communications specialist, I immediately knew I wanted to be a part of what Integrated Loyalty Systems was doing.

Working with the ILS team affords me the ideal opportunity to be involved with something that I genuinely care about both professionally and personally.
